# 10k Diesel Particulate Filter Cleaner

265ml & 265ml Norwegian

#### PRODUCT DESCRIPTION

10K Boost Diesel Particulate Filter Cleaner is an organo-metallic diesel fuel additive that ensures complete & rapid regeneration of the diesel particulate filter. 10K Boost DPF Cleaner lowers the ignition temperature of soot collected in the diesel particulate filter and optimizes periodic combustion of accumulated soot, a process known as filter regeneration. Diesel Particulate Filter Cleaner also reduces particulate emissions and extends lifetime of particulate filter.

#### **PRODUCT BENEFITS**

- \* Ensures complete and rapid diesel particulate filter regeneration
- \* Reduces ignition temperature of trapped soot ensuring extraordinary combustion at temperatures typically encountered during normal engine operation
- \* Prevents performance loss caused by clogged diesel particulate filters and incomplete combustion of soot
- \* Reduces particulate emission assisting in meeting strict legislation and emission limits
- \* Extends lifetime of the expensive diesel particulate filter
- \* Most economic way of soot reduction without any changes to the fuel system
- \* Regeneration of diesel particulate filters is 5-10 times faster and more complete than when using a catalyst coated diesel particulate filter.
- \* No secondary emissions.
- \* Can be used for all diesel engines with standard or retrofitted diesel particulate filter

### **PRODUCT USAGE**

Revision: 2 | Date: 28/06/2012

For all diesel engines (incl. common rail and turbo charged engines) with standard or retrofitted diesel particulate filter.
